

## Triple protection for your dog

We know that you would do anything to protect your family and your dog.

So, it's important to keep your dog happy and healthy, by ensuring they are protected against harmful parasites and diseases.

Now it's even easier to protect against parasites **before** they become a problem.

Simparica Trio is a monthly chew with **triple protection** against a **trio of the biggest threats** facing today's dogs.

### Simparica Trio has your dog covered, no matter how big or small:

- Can be given from **8 weeks of age**
- Suitable for dogs from as little as **1.25 kg**

# Simparica TRIO®

an option for every dog

Simparica Trio is suitable for dogs from **1.25kg:**

You can **start your puppy** when they are **8 weeks old**. Monitor their weight, because you may need to change the Simparica Trio product you use up until they are fully grown. **Remember the Simparica Trio you use corresponds to your dog's weight.**

**Triple protection** against a trio of the biggest threats

<b>1.25-2.5 kg</b>	<b>2.6-5 kg</b>	<b>5.1-10 kg</b>
<b>3pk (3-month protection*)</b>		<b>3pk and 6pk</b>
<b>10.1-20 kg</b>	<b>20.1-40 kg</b>	<b>40.1-60 kg</b>
<b>3pk and 6pk (3-month and 6-month protection*)</b>

# Simparica TRIO®

# TRIPLE PROTECTION

A tasty monthly chew with vet-grade protection

## Protection against the parasites you see...

When it comes to parasites, often the first things that come to mind are what we can see—such as **fleas and ticks**.

### Simparica Trio kills fleas fast:

Starts killing fleas within 4 hours, before they can lay eggs – protecting your dog and your home from infestation<sup>1</sup>

- Fleas may be small, but **can quickly turn into a big problem**
- An infestation can cause your dog discomfort and have the potential to transmit diseases to your dog and family

### Simparica Trio protects against paralysis ticks<sup>2,3</sup>

- **1 bite from a paralysis tick** can cause paralysis, which **can be deadly** to your dog
- The best way to protect your dog is to use an effective tick preventative all year round, like Simparica Trio

**Simparica Trio also kills brown dog ticks, which can be harmful and spread life-threatening diseases to your dog<sup>4,5</sup>**

## ...and the parasites you don't see

Just because you can't see them, does not mean they are not there. Did you know some internal parasites and diseases, such as heartworm disease, can be deadly to your dog?

**SimparicaTRIO<sup>®</sup>**

**tastes good too!**

- A tasty liver-flavoured chew that dogs love<sup>10</sup>
- Can be given with or without food

### Simparica Trio protects against deadly heartworm disease<sup>6-8</sup>

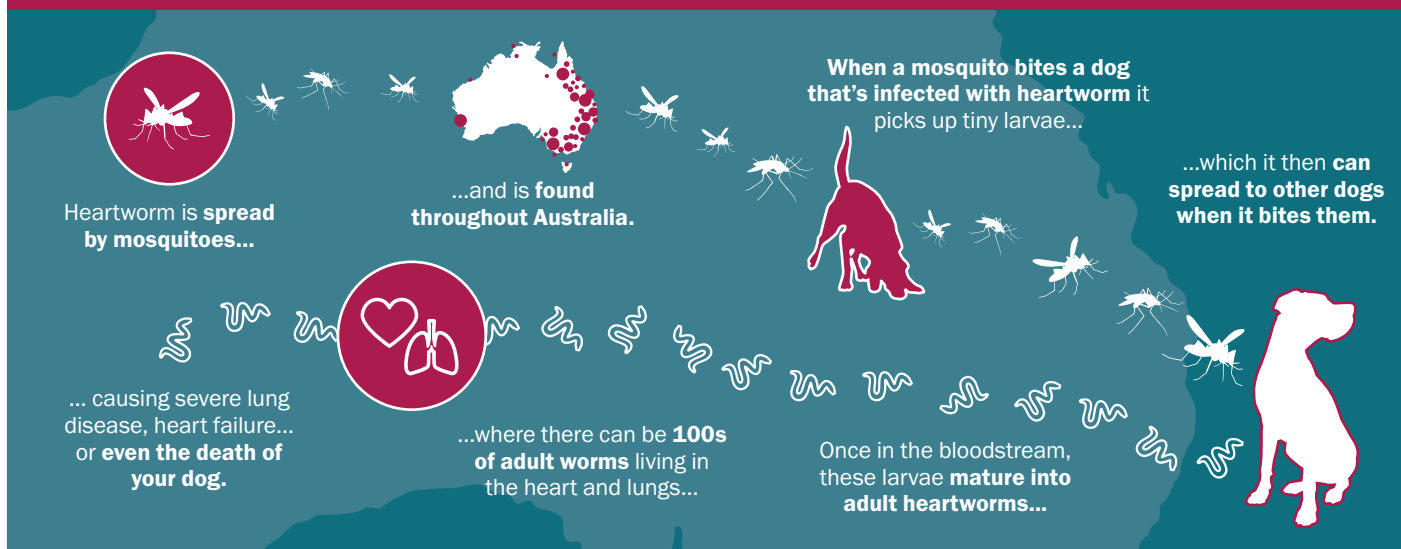

- Contains moxidectin, **the same active ingredient that vets use in their clinic** to deliver year-round heartworm protection

### Simparica Trio provides proven protection from intestinal worms<sup>11-13</sup>

- **Simparica Trio is proven to kill both adult and immature round and hookworms**, reducing the risk of re-infection of your dog and passing these worms to you or your family

## Just 1 bite from a mosquito can lead to deadly heartworm disease<sup>9</sup>

The good news is that **heartworm disease is preventable by giving your dog Simparica Trio**. When given monthly, it is proven to be **100% effective against heartworm disease<sup>6-8</sup>**
