ACTI-TRACE[®]

INJECTION FOR CATTLE

BOOST HERD PERFORMANCE

Acti-Trace Injection for Cattle is a 4-in-1 trace mineral injection that improves the overall health and performance of your herd

ACTIVE CONSTITUENTS:

Zinc 40.0 g/L, Copper 15.0 g/L, Manganese 10.0 g/L, Selenium 5.0 g/L

WHY USE ACTI-TRACE?

- » Boosts availability of essential trace minerals in 'high demand' periods
- » Absorbed into the blood within 8 hours and the liver within 24 hours
- » Prolonged antioxidant action
- » Balanced, chelated, and water-based formulation

RECOMMENDED FOR:

- » Increasing the number of calves born earlier in the season, giving them an extra 20 to 40 days to perform to the best of their genetic potential
- » Improving all three parts of the immune system to make livestock 'performance ready'

PRODUCT INDICATIONS

*Boost availability of essential trace minerals in "high demand" periods .'
